Experience

I've worked with a variety of industries including tech media and banking. Some of which include:

Globus Bank Limited - Frontend Developer   **Oct 2019 - Sep 2020**

- Worked closely with the UI/UX Designer to develop the Corporate Internet Banking (CIB) and the Customer Onboarding web applications

- Collaborated and shared ideas with the Backend Engineers to develop the Application Programming Interface (APIs) for the various web applications

- Ensured the continuous update of features for the web applications

Techpoint.Africa - Lead Software Developer   **Dec 2018 - Sep 2019**

- Designed & Developed the Techpoint Intelligence platform that automates the sales of the annual startup funding reports

- Developed Techpoint Build and Techpoint Inspired event platforms

- Hosted and ensured the smooth running of all web applications on Linode Servers

Freelancer - Freelance Web Developer   **2017 - Sep 2018**

- Designed & Developed websites with given sets of requirements for small businesses
