I'm a Frontend Developer with about 3 years of professional experience with a focus on building accessible, pixel-perfect user interfaces. I care deeply about product usability and so ensure that products are maintained by adopting the best web practices and technologies available.

Experience

Front End Developer (Contract)
Globus Bank Limited

Lagos Island, Lagos
09/2019 - Present

- Worked closely with the UI/UX Designer to develop the Retail Internet Banking (RIB), Corporate Internet Banking (CIB) and the Customer Onboarding web applications using VueJS.

- Collaborated and shared ideas with the Backend Engineers to develop the Application Programming Interface (APIs) for the various web applications

- Ensured the continuous update of features for the web applications

Lead Software Developer
Techpoint.Africa

Lagos Mainland, Lagos
11/2018 - 09/2019

- Designed & Developed the Techpoint Intelligence platform that automates the sales of the annual startup funding reports using PHP/MYSQL

- Developed Techpoint Build and Techpoint Inspired event platforms

- Hosted and ensured the smooth running of all web applications on Linode Servers

Freelance Software Developer
Freelancer

Lagos
02/2017 - 10/2018

- Designed & Developed websites with given sets of requirements for small businesses
